1 Lien : ln fichier link

- ln -s (symbolique) -r (relatif seulement si symbolique) file link

2 Tree

-l follow symbolic -s size (-u -g -p file type ...) -d directory only -a all files -t sort by last modification

3 chmod

4 : x 2 : w 1 : r 755 ... [augo][+|=][xwr] +[t (can't delete or rename other than g or u) s (execute with g ou u)]

4 su newuser

5 sudo useradd newuser

6 sudo passwd newuser

7 find

find \home\ -type [f d (s b c)] -name "*.txt" -print 2>/dev/null | head -n 16 ainsi que -size +16M
-iname = pas de cast -regex '...'

8 stat + readlink (voir ~/scripts)

9 script bash (same)
